

Price for the printing of 3D stickers:

Area, cm ²	Price, EUR
1000	0,040
2000	0,038
3000	0,035
5000	0,034
10000	0,033
15000	0,031

How to calculate the price: If you need stickers 2*3 cm, with a number of 280 pieces:

- 1) You count the square of the sticker by multiplying the sides: $2*3 = 6$ cm. (One sticker).
- 2) You multiply by the desired quantity: $6*280 = 1680$ cm (total).
- 3) Multiply your square by the price of the corresponding area: $1680*0.040 = 67,2$ EUR per the whole circulation.

The term of production is 3-7 days.
